Yes, move it out beyond 4/2015.

Thanks,

Subject: CERCLA EPCRA Reg Agenda question: OSWER's pending actions
Importance: High

Does OEM still want this rule in the Pending Category...meaning it won't appear in the published Reg Agenda. If we are to leave it in pending then we will need to move the date out beyond 4/2015.

Subject: OSWER's pending actions

Hello,

OSWER has one action in the spring 2013 Reg Agenda marked "pending" but it has a projected FR publication date within the next 12 months. OMB has asked that we use the 'pending' tool in the Reg Agenda only for long-term actions. Can you let me know if the following action is listed with the correct dates and if it can be moved out of "pending" and returned to "active"? If not, please provide an explanation why.

- CERCLA/EPCRA Reporting Requirements for Air Releases of Hazardous Substances from Animal Waste at Farms (SAN 5484). NPRM 12/00/2014.
